Rulebook for Web Styledown – CSS Styling Challenge

Rules & Guidelines

1. **HTML Modifications**

   o Participants can modify the provided HTML file as per their convenience.

   o Ensure that changes align with the overall theme and improve functionality or aesthetics.

2. **Provided Resources**

   o A drive link will be shared containing html file various images and assets. Participants can choose and utilize these resources based on their design preferences.

   o There are no restrictions on how many assets you can use; it is entirely up to you.

3. **CSS Styling**

   o Custom CSS is mandatory.

   o You may use external CSS libraries for additional features, but original styling work must be evident.

   o Designs must be responsive and adaptable to desktop, tablet, and mobile screens.

4. **Code Quality**

   o Write clean, organized, and well-commented code for better understanding and review.

Submission Method

1. **Upload Options**

   o Share the link to your GitHub repository containing the project code.

   o Provide a live preview link of the deployed project.

   o Through **Google Form**.

   o **Optional:** Upload your HTML, CSS, or other related files to the drive link and share the link through the Google Form.

2. **Snapshot Requirement**

   o Along with any submission option, upload a snapshot of your project to the Google Form.

3. **Deadline**

   o Ensure submissions are made by the stipulated deadline: **Sunday, 10:00 PM IST.**

   o Late submissions will not be accepted.
